Golden Hills School Division No. 75

## 2nd Quarterly Report Draft V. 2

September 2012 - February 2013
Prepared by the Finance Department for the April, 2013 Board Meeting
Purpose of Quarterly Report

1. Monitor Activity
2. Review Variances

## I Context

The second quarterly financial report lists revenues and expenditures recorded to February 28, 2013, which are the first six months of the year. The number of months expended in the year are three (6); therefore the normal benchmark for comparison is $50 \%$ ( $6 / 12$ months) or $60 \%(6 / 10)$ months for some categories.

The updated Budget was submitted to Alberta Education November 30, 2012 and budget points of reference are from the November 30, 2012 submitted budget.

## B. Notes on Comparison to Budget - Revenues

The overall $\mathbf{\$ 1 , 3 1 4 K}$ year-to-date excess of revenues over expenses, and the positive budget variance of approximately $\mathbf{\$ 1 , 6 6 5 K}$, is, in part, the result of the following:

- Timing of revenue from Alberta Education is normally disbursed on a monthly basis. Exceptions to this are those payments which are received either annually, bi-annually or as a one-timepayment:
Alberta Education non-monthly Grant Revenues Received in Q1-Q2

| Name of Grant | Amount Received |  | \% of Grant Received |
| :---: | :---: | :---: | :---: |
| RCSD Regional Planning Team Support | \$ | 38,000 | 100\% |
| IMR grant | \$ | 504,411 | 50\% |
| SHIP grant | \$ | 485,067 | 58\% |
| Supernet grant | \$ | 139,992 | 58\% |
| Fuel Price Contingency Funding | \$ | 172,247 | 82\% |
| School Facility Leasing Cost |  | 587,264 | 100\% |

- Included in the second quarter are SGF year-to-date revenues of \$1,642,086 and SGF year-todate expenses of $\$ 1,527,134$. This inclusion represents compliance with the new SGF reporting requirements. The term "School Generated Funds" has disappeared so the old SGF Assets are now reported as Cash and temporary investments and the old SGF Liabilities are now reported as Deferred Revenue.
- Approximately $65 \%$ of Internationals' deferred revenues have been recognized (\$2.08M) vs. an overall International revenue budget of $\$ 2.75 \mathrm{M}$, contributing over $\$ 700 \mathrm{~K}$ towards the overall positive variance recorded under total revenues.

## C Notes on Comparison to Budget - Expenses

## Certificated Salaries and Benefits

Total Certificated Salaries and Benefits for the $2^{\text {nd }}$ quarter were $\$ 20,564,926$ (49\% of a $\$ 42 \mathrm{M}$ budget) which is lower than what the budget would permit by the 2 nd quarter primarily because benefit costs are lower in the $1^{\text {st }}$ quarter and higher in January then drop off as maximums on premiums are reached. As well, hiring of staff occurs throughout the $1^{\text {st }}$ quarter so labour costs are typically lower than budget at the start of the year. This positive variance of $\$ 415 \mathrm{~K}$ is minimal indicating overall labour costs are within targets.

## Non-Certificated Salaries and Benefits

Total Non-Certificated Salaries and Benefits for the $2^{\text {nd }}$ quarter was $\$ 6,888,823$ ( $54 \%$ of budgeted $\$ 12.7 \mathrm{M}$ ); A majority of non-certificated staff is paid over 10 months not 12 months;
therefore the expenditure is higher for first 10 months but decreases in the last TWO months. This is a similar variance achieved in the $2^{\text {nd }}$ quarter of the previous year.

## Supplies and Services

Supplies are $\$ 9,179,483$ ( $54 \%$ of budget $\$ 17.0 \mathrm{M}$ ). Because much of these costs occur over a 10month school year and not the 12-month fiscal year, this results in higher costs in the first 3 quarters and lower costs in the $4^{\text {th }}$ quarter. Department managers will continue to monitor their budgets throughout the year to ensure they stay within their spending limits.

Overall, supply costs year-to-date at February $28^{\text {th }}$ are showing a negative variance of approximately $\mathbf{\$ - 6 6 7 K}$. This compares against a negative variance of $\$-872 \mathrm{~K}$ in the previous quarter (Q1).

The overall second quarter positive variance of $\mathbf{\$ 1 , 6 6 5 K}$, when mediated by all the factors highlighted in this report, is estimated to be in the actual range of $\$ 250,000$ to $\$ 500,000$.

## III Average Source and Use of Cash

A. Approximate average monthly cash flow values as at February 28, 2013:

| Statement of Cash Flow |  |
| :--- | ---: |
|  |  |
| Grants | $5,300,000.00$ |
| Account Receivable | $250,000.00$ |
| Total Cash In | $\mathbf{5 , 5 5 0 , 0 0 0 . 0 0}$ |
| Accounts Payable | $\mathbf{2 , 5 0 0 , 0 0 0 . 0 0}$ |
| Payroll | $\mathbf{2 , 8 5 0 , 0 0 0 . 0 0}$ |
| Total Cash Out | $\mathbf{5 , 3 5 0 , 0 0 0 . 0 0}$ |

B. Golden Hills is currently in a positive cash position.

Cash is critical for short-term operations as it pays the salaries and vendors, which comprise the largest part of the budget. Note: as of the date of report, $\$ 4.0 \mathrm{M}$ of the cash balance has been invested into 18 -month GIC's to obtain more favourable investment returns. \$5.0M has been transferred into a premium investment account. Interest yields on these short term investments ranged from $1.27 \%$ to $1.70 \%$.

Positive/Negative Variance - profit/surplus is not an actual record of money. This number does not represent actual cash. For example, amortization is a way of the spreading the cost of an asset over many years but there is not actual exchange of cash in that particular period.
C. Other Notes:

Depreciation is method of recovering the cost of a tangible asset over its useful life for example a building. Amortization is the same process as depreciation, only for intangible assets - items that have value, but that you can't touch. For example, a patent or trademark has value, as does goodwill. In addition, amortization also has a meaning in paying
off a debt, like a mortgage, but in the current context it has to do with business assets. Overall, amortization is a more general term which may apply to both tangible and intangible assets or liabilities, whereas, depreciation is a term restricted to tangible assets only.

B. ANALYSIS OF REVENUE/ EXPENSES BY ENVELOPE

## 1. Instruction

- Within the Instruction envelope, a positive variance of $\$ 930 \mathrm{~K}$ occurred primarily because of a) the timing of certain grants resulted in higher revenues compared to budget and b) hiring continues to occur to fill all the required positions and benefit costs are lower towards the end of the calendar year because maximums on certain benefits premiums are reached.
- Instructional Resource Fees are collected at the schools and a process is in place for monthly submission by the schools to include in the quarterly reports.
- Analysis of collection of Instructional Resources Fees (current year) as at February 28, 2013 is as follows:

| Invoiced | Collected | Waived |
| :--- | :--- | :--- |
| $\$ 337,248$ | $\$ 220,970(65.5 \%)$ | $\$ 795(0.2 \%)$ |

- Note: Resource fees for 2012-13 have been reduced by $50 \%$ over prior year's rates.
- In the previous year, collections of Resource Fees were at 61\% at Feb 28, 2012.

## 2. Plant Operations and Maintenance

- A negative variance of approximately $-\mathbf{\$ 1 3 9 , 0 1 6}$ is the actual result at the end of the $2^{\text {nd }}$ quarter. Utilities and snow removal are higher than anticipated as a result of a colder winter along with more snow. Often this balances out through the year. It is anticipated that Plant Operations \& Maintenance will finish the year with a near balanced budget at fiscal year-end.

2. Transportation

| Total | $2,346,836.00$ | $1,328,290.00$ | $57 \%$ | $57 \%$ |

a. For the second quarter a negative variance of - $\mathbf{\$ 2 2 4 , 0 7 2}$ is attributed to the following:

- Transportation expends its budget over a 10 month period vs. a 12 month period. Both salaries and supplies expenses are higher for 10 months than the projected July and August expenditures while revenues are recorded over a 12 month period.
b. No transportation fees for the 2012-13 were charged. However, efforts are made to collect on the outstanding fees from 2011-12. $(\$ 10,020)$

| Invoiced in Q1-2012-13 | Collected from 2011-12 year | Waived |
| :--- | :--- | :---: |
| \$nil | $\$ 1,270$ | nil |

c. It is anticipated that due to the elimination of the Fuel Price Contingency mid-year, transportation will be in a deficit at year end.

## 4. Board and System Administration

A break-even year for Board and System Administration is expected for the year end.
System administration is on target with a positive variance of $\mathbf{\$ 1 0 7 , 9 3 9}$ showing for the second quarter. This is not enveloped funding, rather systems are permitted to spend $4 \%$ of their expenditures. In effect, the formula has a built in mechanism for reducing Board and System Administration when overall expenses decrease. As system expenditures decrease, the formula for Board and System Administration automatically decrease. Historically, this envelope is always under $4 \%$, usually less than $25 \%$ below what is allowed under the current formula.
a. Below is a summary of the revenues and expenses associated with the Board of Trustees:

|  | SUMMARY STATEMENT OF REVENUES AND EXPENSES |  |  |  |  |  |  |  |

| TOTAL EXPENSES |  | \$ | 180,805.00 | \$ | 78,117.19 | \$ | 102,687.81 | 43\% |

- Board expenses are well below the projected expenditure amount.

## 5. External Services

- For the second quarter, External Services has a year-to-date positive variance of $\mathbf{\$ 2 4 , 3 6 8}$. External Services includes International Services, joint use agreements and external contract service agreements. Included within the first two quarters is the recognition of \$1,148,993 of ISS tuition fee revenues (originally recorded as Deferred Revenue). ISS Revenues are received in unequal amounts throughout the year, much of it in the first few months. As a result, this revenue is pro-rated to each quarter based on an estimation of related expenses (35/30/25/10), while expenses are recognized when they occur. This accelerated proration of revenue recognition in the first half of the fiscal year contributes approximately $\$ 300 \mathrm{~K}$ towards External Services' year-to-date positive variance.
- A break-even for External Services is anticipated for year-end.

## SUMMARY OF QUARTERLY

Overall, GHSD appears to be on track and is aligned with meeting the Board November 30, 2012 approved and submitted budget with the exception of the mid-year elimination of Alberta Initiative for School Improvement (AISI) and Fuel Price Contingency. It is anticipated that due to unanticipated elimination of both these grants there will now be deficits in both the Transportation and AISI budgets.
