8.2.1. Enrolment Monitoring Report (October 2014)
8.2.2. Class Size Report
K. Jordan
8.2.3. Technology Services Plan
K. Jordan
8.2.4. School Summaries Monitoring Report
T. Sabir
8.2.5. Boundary Review of Policy/Procedures
B. Daverne
9. ADJOURNMENT

Regular Meeting of the Board of Trustees
Meeting Type : REGULAR BOARD MEETING
Date : Tuesday, November 25, 2014
Start time : 9:30 AM
Location : Boardroom of the Golden Hills School Division No. 75

## Minutes

Attendance
Present were:
a) Chair

- David Price
b) Vice-Chair
- Larry Tucker
c) Trustee
- Barry Kletke
- Alan Larsen
- Joyce Bazant
d) Superintendent of Schools
- Bevan Daverne
e) Associate Superintendent
- Kandace Jordan
- Wes Miskiman
f) Secretary/Treasurer
- Tahra Sabir
g) Reporting Secretary
- Kristy Polet
h) Absent
- Sherri Neilsen

|  | Resolution \#BD20141125.1002 <br> MOVED by Trustee Tucker that the Board rises from in-camera at 10:55 a.m. |
|  | BREAK <br> Recessed at 10:56 a.m. |
| Reconvene at 11:10 a.m. |  |

## Carried

## Chair's Report

(REPORTS)
Chair Price reported on the following items:

- The Strengthening ASBA's Provincial Task Force Meeting with the ASBA Board of Directors, the subsequent Board of Directors presentation to the general assembly at the Fall General Meeting and the principles supporting this initiative. There will be a survey to follow.
- Discussed the ASBA Fall General Meeting that was held in Edmonton, November 16-18, 2014.
- Discussed School Boundary Policy and the potential future planning.
- Transportation Crisis Meeting organized by Buffalo Trails School Division on November 16, 2014 in Edmonton. Discussion was based around addressing the crisis in rural student transportation; funding formula needs to be improved as all boards reported significant deficits in their transportation envelopes.
- Discussed meeting with Mr.Bruce Rowe, MLA Olds-Didsbury-Three Hills constituency on the matter of the need for improved approach to the funding of school construction: inflating costs between date of approval and completion of construction, greater flexibility needed to attract and engage general contractors who have not considered school construction projects.

## BREAK

(REPORTS)

## Administration

 Reports(REPORTS)

Recessed at 12:05 p.m.
Reconvene at 12:46 p.m.

Nothing to report on at this time.

Trustee Tucker reported on the following items discussed at the ASBA Zone 5 Meeting held November 7, 2014 :

- Discussed Strategic direction for Zone 5 for 2014-2017.
- The ASBA membership fee formula will be staying the same.
- Discussed the new Hiring committee for the ASBA Executive Director.

Associate Superintendent Miskiman presented information on the following topics:

- Human Resource update
- C2 Committee meeting on Nov. 19, 2014. Discussed Golden Hills School Division Teacher support and how items at Collaborative and PD Days are based around supporting Teachers in our schools.
- CUPE Agreement has been finalized.

Associate Superintendent Jordan presented information on the following topics:

- Discussed the positive feed back in and around the schools from the teachers.
- Collaborative days are being well received and appreciated.
- Discussed the positive feed back for the change in the new school calendar.
- Discussed ISS (International Student Services)

Secretary-Treasurer Sabir presented information on the following topics:

- Transportation Department discussed the challenges.
- Discussed the move in date/s for students into the Trochu Valley school.

Superintendent Daverne presented information on the following topics:

- Discussed scheduling school tours for the Trustees.
- Golden Hills School Division Christmas concert list will be provided to the Trustees.
- Events - Discussed the school production "New Blood" by Strathmore High School drama class. The script was locally written and produced by Deanne Bertsch.

Resolution \#BD20141125.1006
MOVED by Trustee Kletke that the Board of Trustees approves the compensation grid as per Schedule B effective September 1, 2014.

Carried
Resolution \#BD20141125.1007
MOVED by Trustee Kletke that the Board approve the Collective Agreement between Golden Hills School Division No. 75 and CUPE Local 2347 for the period September 1, 2014 to August 31, 2017 as presented.

Carried
Resolution \#BD20141125.1008
MOVED by Trustee Tucker that the Board of Trustees approves Trustee Bazant to Represent Golden Hills School Division No. 75 on the Agricultural Society Board and the RREC (Regional Recreational Enhancement Committee).

Carried
Secretary-Treasurer Sabir presented information on the fall update to the 2014-2015
$\qquad$

Final Budget
Submission
2014-2015

Three Year Education Plan and AERR<br>(Action Items)

Budget.
Resolution \#BD20141125.1009
MOVED by Trustee Bazant that the Board of Trustees approves the Budget 2014-15 for submission to Alberta Education by November 30, 2014 as required subject to the Board being advised of any minor adjustments which may be necessary before the budget is submitted to Alberta Education November 30, 2014.

Carried
Superintendent Daverne presented information of the Three Year Education Plan and Annual Education Results Report.

Resolution \#BD20141125.1010
MOVED by Trustee Tucker that the Board of Trustees approves the combined Three Year Education Plan 2014-2017 and Annual Education Results Report 2013-2014 for submission to Alberta Education November 30, 2014.

Carried
Resolution \#BD20141125.1011
MOVED by Trustee Kletke that the Board of Trustees approves the proposed high school field studies/excursion for Prairie Christian Academy to Bogota, Colombia from February 7, 2015 to February 18, 2015 subject to advisory notices from Foreign Affairs and International Trade Canada website
http://www.voyage.gc.ca/countries_pays/updates_mise-a-jour-eng.asp such that if a travel warning is issued prior to the trip and not rescinded before the departure date, the trip will be cancelled and parents must be advised that this will be the case.

Carried
Resolution \#BD20141125.1012
MOVED by Trustee Larsen that the Board of Trustees approves the proposed high school field studies/excursion for Drumheller Valley Secondary School to New York from March 21, 2016 to March 30, 2016 subject to advisory notices from Foreign Affairs and International Trade Canada website http://www.voyage.gc.ca/countries_pays/updates mise-a-jour-eng.asp such that if a travel warning is issued prior to the trip and not rescinded before the departure date, the trip will be cancelled and parents must be advised that this will be the case.

Carried
Strathmore High School requests permission, in accordance with Administrative Procedure 260 and Board Policy 2, for a high school field trip to Smith Falls, Ontario from April 23, 2015 to April 28, 2015 and that the Board of Trustees receives this as information.

Secretary-Treasurer Sabir presented information on the monthly enrolment report.

Resolution \#BD20141125.1013
MOVED by Trustee Larsen that the meeting adjourn at 2:41 p.m.

Chair

Secretary-Treasurer

ALBERTA SCHOOL COUNCILS' ASSOCIATION
"Inspiring confident, connected, caring citizens of the world"
December 16, 2014

## Background:

The ASCA is committed to the vision of "an effective school council in every Alberta school", the Alberta School Councils' Association encourages parental engagement in education at the local (school), regional (school board) and provincial (ASCA Board of Directors) levels, primarily through the vehicle of school council.

ASCA provides resources and support to further this vision in a variety of ways, promoting positive relationships between parents, teachers, principals, central office personnel and school trustees. Supporting effective school council practices and demonstrating how parental engagement can enhance school improvement strategies, and ultimately student success, is the underpinning of all ASCA efforts.

1. The Association hosts the following meetings, events and support each year:

- Please see attached ASCA Letter

2. What would be the cost of the membership?
*Sponsoring of ASCA Membership for 34 schools within Golden Hills School Division Membership Year: July 1, 2014 - June 30, 2015

Basic Annual Fee breakdown
34(schools) x \$50.00(unit price)
Total Membership Fee $=\mathbf{\$ 1 , 7 0 0 . 0 0}$

## Recommendation:

That the Board of Trustees discusses district support for the membership of all GHSD School Councils in ASCA.

[^0]Dear Superintendent:
I am touching base regarding the benefits of district sponsored membership with Alberta School Councils' Association (ASCA), and encourage you to sponsor membership for the school councils within your district.

ASCA offers resources, supports and services to increase the effectiveness of school councils in Alberta. An effective school council works with their board to enhance and further common goals.

District sponsorship provides workshops, training and consultation services at no charge to all school councils in the district. The district office also receives information sessions, staff assistance and presentations regarding school council establishment and effectiveness.

|  | Workshops | Webinars | Consultation | Website | Events | Resources | News | Advocacy |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | Collaboration

If you have any questions or would like to discuss the services accessed by the school councils in your district during the past year, please contact me. I look forward to working with you to support your district school council and parent engagement strategies.

Sincerely,

Michele Mulder
Executive Director

## Benefits for School Boards with ASCA District Membership

ASCA provides ongoing training and supports that enable parents to build respectful, appropriate relationships in schools. Benefit to the school staff is the parent focus on student performance and achievement which leads to collaboration and productive outcomes.

School boards are assured that all school councils within their district/division have access to an established set of resources and supports, with training workshops delivered on-site at the councils' convenience, and included in the cost of membership.

ASCA sessions contain consistent messages to promote parents working with the school board in a collaborative manner, and supporting the goals established by the board related to school improvement and student achievement.

Specific sessions and services are available to the school division that sponsors district-wide membership on behalf of all of their school councils, including:

- School council establishment services (for schools where no school council currently exists);
- School-based administrators presentations on parental engagement practices and school council effectiveness;
- Council of School Councils (COSC) establishment and supports;
- School board presentations promoting best practices for working with school councils.

Opportunity for district school council parents to attend the ASCA conference and Annual General Meeting at a reduced rate. Trustees and superintendents of sponsoring boards also receive the discounted rate for conferences and the Annual General Meeting.

Provision of factual information on provincial curriculum, programs, and initiatives through emails, bulletins and website. Specific informational research can be provided to members by request.

New for the 2014-2015 school year is a presentation focused on the elements of Inspiring Education for COSCs, school councils or school community groups.

ASCA is recognized by Alberta Education and other education organizations as the association bringing the provincial parent perspective on education issues to government and others. School councils can support their school board's advocacy efforts through ASCA's issue resolution policy process.

ENROLMENT BACKGROUNDER
"Inspiring confident, connected, caring citizens of the world"
December 16, 2014

## Background:

The Board of Trustees regularly monitors enrolment and notes trends over time. Funding is primarily enrolment-driven and monitoring and projecting enrolment trends informs the board's budgeting processes.

As per the attached monitoring report, information is provided on November 30, 2014 enrolment of provincially funded students, Siksika funded students and International funded students.

Alberta Education calculates funding for Kindergarten to Grade 9 based on the full-time equivalent student count as of September 30, 2013. High school funding is based on the Credit Enrolment Units earned per student.

## Recommendation:

That the Board of Trustees receives the Enrolment Monitoring Report for information and for the record.

Bevan Daverne
Superintendent

Tahr Sapir
Secretary-Treasurer

CLASS SIZE INITIATIVE
"Inspiring confident, connected, caring citizens of the world"
December 16, 2014

## Background:

The Class Size Initiative was implemented during the 2004-2005 school term and the associated extra funding has been much appreciated by teachers, students and parents. The original goal of the funding was to achieve the following averages by the fall of the 2006-2007 school term:

| K $-3:$ | 17 students |
| :---: | :--- |
| $4-6:$ | 23 students |
| $7-9:$ | 25 students |
| $10-12:$ | 27 students |

Class Size funding is for grades $\mathrm{K}-3$ and 10-12. Grades 4-9 only receive the base instruction funding and do not receive any class size funding. Guidelines are not expected to be met in each and every classroom and class composition is one of the factors considered when principals make decisions. Local decisionmaking allows the needed flexibility to organize classes in ways that best meet learning needs of students.

Alberta Education reporting requirements have changed. Class size results are reported in the Annual Education Results Report (AERR) rather than directly to the ministry.

As will be noted from the chart below, Golden Hills School Division has met all the guidelines except at the Kindergarten to Grade 3 level which is somewhat higher. The Grade 10-12 is significantly lower than the recommended level as schools try to provide a wide range of course options for their students. Each school principal makes decisions about how to best allocate their resources to serve students. For further information reference can be made at:
http://education.alberta.ca/department/ipr/classsize.aspx

| Golden Hills School Division Results 2014-2015 |  |  |  |
| :--- | :---: | :---: | :---: |
| Grade | Target | Range | Actual Average |
| K-3 | 17 | $4.0-37.0$ | 20.1 |
| $4-6$ | 23 | $5.0-31.0$ | 21.2 |
| $7-9$ | 25 | $8.0-58.0$ | 23.0 |
| $10-12$ | 27 | $1.0-52.0$ | 19.8 |

## Recommendation:

That the Board of Trustees receives as information and for the record.

Bevan Daverne
Superintendent

Dr. Kandace Jordan Associate Superintendent of Schools

Technology Services

## "Inspiring confident, connected, caring citizens of the world"

December 16, 2014

## Background:

Golden Hills School Division has made a priority of enhancing technology in our schools. Significant progress has been made over the last number of years and we are much closer to meeting our goals of anywhere, anytime, anyplace access that allows teachers and students to meet Information Communication Technology outcomes and engage students in rich real-world learning experiences. In addition, noteworthy efficiencies have been achieved in terms of system administration.

## Recommendation:

That the Board of Trustees receives the Technology Services Report for information and for the record.

Bevan Daverne
Superintendent

Dr. Kandace Jordan
Associate Superintendent of Schools

TECHNOLOGY SERVICES MONITORING REPORT
Presented to the Board of Trustees by Kandace Jordan Associate Superintendent of Schools

Resource Person: Todd Kennedy

December 16, 2014

## Overview

Technology Services has three main functions:

1. Maintain infrastructure. We manage and modify the infrastructure such as servers, switches, cabling, battery backups, telephones, video conferencing, Internet, and wireless networks. Services that work behind the scenes to allow us to deliver technology into the hands of teachers.
2. Support Technology. Our team maintains and fixes all computers, mobile devices, printers, and technology that our staff and students use on a daily basis. This involves technicians visiting schools and classrooms every day as students and teachers use virtually every piece of computer equipment that we own almost every day.
3. Staff Training. Our team works with teachers and school staff in all locations every day to train them on how to use technology like Moodle, Google Docs, iPads, web-based tools, ActivBoards, ActivExpressions. Instructional Coaches additionally spend significant time supporting teachers in using technology as a learning tool.

## Help Desk Ticketing

Our online help desk ticketing software continues to be used by staff and students. There was a decrease in the number of tickets from 2012/13 to 2013/14. It appears that most of this is due to our staff being visible in schools and many items are discussed in person and are not ticketed and tracked.

The chart below illustrates the number of tickets that have been opened with our department on an annual basis, and the current year-to-date requests:

Technical Support Tickets

## Staffing

Our team initiated a new training program utilizing a software license from Skillsets Online. This project allowed for each team member to participate in personal training on a wide range of topics including Windows, Networking, and SQL experience.

Aside from the everyday work assignments, some new technologies and support mechanisms have been added to team workload:

- IP security cameras, door locks and management systems
- iPad deployment strategy
- NComputing as a virtual desktop strategy - NComputing is a company that makes a small device that attaches to a monitor and provides a virtual desktop environment. It links to a server instead of using a desktop computer. This gives students full access to a Windows computer at a fraction of the cost.

## Inventory

Our computer inventory increased somewhat this past year but overall the biggest growth has been in ChromeBooks and iPads, with approximately 400 devices added in 2013-2014 bringing our inventory to about 4,200 computers including Netbooks, Notebooks, workstations, and over 400 Apple iPad tablets. For comparison sake, this inventory was approximately 1,500 computers in May 2011.

These are computers that Golden Hills owns and manages. On any given day there are hundreds of additional computers, smartphones, tablets, and other devices that are brought into schools and used by students on our wireless networks.

## Bandwidth

## Internet/Winter Olympics

Our bandwidth requirement from our schools continues to increase. This is due in part to the number of devices that students bring into our buildings, and increased use by students and teachers within the classroom.

In 2012-2013 our bandwidth usage was at approximately $60 \mathrm{Mb} / \mathrm{s}$, and for 2013-2014 that bandwidth is at $158 \mathrm{Mb} / \mathrm{s}$ - we've increased by 2.63 times. During the Winter Olympics we increased our bandwidth temporarily and during Canada's hockey games and curling matches, our bandwidth used a sustained $220 \mathrm{Mb} / \mathrm{s}$. Every classroom that wanted to participate and watch the Olympics could and experienced no issues.

There are two sets of charts below. The first is "Transit" which is basic Internet traffic. The second set are "Peering" which is primarily YouTube, Google and other large scale Internet services.

Our "Peering" traffic is also up substantially from an average of $51 \mathrm{Mb} / \mathrm{s}$ to $72 \mathrm{Mb} / \mathrm{s}$.
We very closely monitor our bandwidth usage and respond as necessary with increased bandwidth to meet demand. However the response also results in additional costs. Last year we were paying on average $\$ 700$ per month for our Internet traffic and this year we are at $\$ 2,300$ per month. Annually this is an increase of $\$ 19,200$ per year.

Last Year (Nov 2013) ~ 60 Mb/s

This year (Nov 2014) ~ 158 Mb/s

Peering Chart - YouTube, Google Docs
Last Year (Nov 2013) ~ 51 Mb/s

This Year (Nov 2014) ~ 72 Mb/s

## Infrastructure

We continue to make many changes and improvements to our server infrastructure. As of February 2013 with the exception of our financial server, all other services were been virtualized into the VMWare platform. This has provided incredible speed, efficiency, and stability to all services. In addition we added a Nimble storage array as the backbone storage to our server farm, and this has been an extraordinary system and rock solid in performance. This combination of VMWare servers and the Nimble array has set us up to support an incredible range of future services and provides a solid foundation for future expansion.

As an example, each of our servers exists as a virtual server on at least two physical servers. This means that at any given time if one server fails the second one automatically takes over, and there is no loss of service to our schools even during upgrades.

In addition, we have added a real-time disaster recovery (DR) system in a remote physical location. What this gives us is all services and data in a completely different town, so that if anything happens to our main data centre in Strathmore, we can be up and running within a few minutes through the secondary location. All data is synchronized between the two sites on a daily basis, with some critical services happening every 15 minutes. We are one of the first school jurisdictions to provide this level of service to our staff and students.

## Student Information Systems - SIS (SchoolLogic, StudentsAchieve, PASI)

Last year we were very excited and pleased to see our student information system packages come under one umbrella company - SRB, and our hope was that service would improve. Unfortunately this did not come about as we expected. Service from SRB has continued to slow down, become even less responsive and the system has struggled to meet our needs.

We are the PASI test site for SRB, and we have been working with them for almost two years to become PASI-ready. However when testing did finally begin in August 2014 it failed and SRB went back to the drawing board. To date we are still not able to do live testing for PASI compatibility, but have set a goal of being live by September 2015. We have initiated an SIS review committee to determine our future plans for Golden Hills Student Information Systems.

## Netbooks

We are looking at a new evergreen plan to replace as many Netbooks possible during the early part of 2015. We have been testing various types' of netbooks, including ChromeBooks, in a number of our schools.

## iPads

iPads continue to be a strong choice in a number of our schools in all sorts of roles. We are finding them challenging as a multiple user device, but teachers who use them are finding great success. We expect the number of iPads to increase substantially during 2014/2015, perhaps as much as triple in inventory.

## VoIP

## SIP trunking vs. Primary Rate Interface (PRI)

During 2012/13 we initiated a pilot test using a new service called SIP Trunking over SuperNet. This is meant as a technology to replace traditional telephone lines, that is the phone lines that all of our schools use to communicate between other schools and parents and our communities. The pilot was wildly successful and provided some excellent efficiencies so we have decided to change all voice lines to this technology in September 2014 with an expectation of seeing a savings of over $\$ 40,000$ per year.

## RICOH

2013/14 was the second full year of jurisdiction-wide implementation of the RICOH print device contract. Overall schools are making good use of these products and we are seeing improvement to the stability. There were some challenges as we worked with our schools in creating the best fit for each program, but it appears that most of the challenges have been met with success.

Early 2014/15 is showing even more improved stability and value in this project.

## Wireless

The Golden Hills wireless network use continues to grow and see improvements. We continually monitor each access point and add resources to our schools. During 2013/14 we saw an average of 1,900 devices on our wireless networks at any given time. Our goal is to provide easy, open, and fast access to wireless Internet in all of our schools, and we continue to lead the province in making this service available to our students.

## Technology for Learning Initiative

(included in System Enhancement report for Instructional Coach focus; included in this report for technology focus)
Golden Hills School Division continues to encourage and support system wide improvement that embraces powerful learning design, global citizenship, strategic instruction and student engagement. We continue to build capacity in both teachers and students by providing access to technology in a supportive and collaborative environment. The continued success of the Assistive Technology Lending Library allows students and teachers to have access to Notebooks, Netbooks, Chromebooks, iPads, iPods and text speech software (WordQ/SpeakQ) and provides support for inclusive education.

Instructional Coaches provided support in the following areas:

- ActivInspire - Activiboards and flipchart building
- Assistive technologies
- Blogs
- CORE (Collaborative Online Resources)
- Digital Citizenship
- Digital Creation tools
- Digital Storytelling
- Google Campus (Google Mail \& Google Docs)
- iPads - Apps
- Mahara - Online portfolio
- Moodle - Online Learning Management System
- Social Media (Twitter, Facebook)
- Streaming Media (Youtube, TeacherTube,)
- Student Response Systems (ActiVotes, Online)
- Web 2/3.0 Tools (Glogster, Prezi, Padlet,etc.)
- Website building (for both students and teachers)

## Summary and Implications

Our overall infrastructure accessibility and stability has continued to improve. During 2014/15 we will be focusing on a technology evergreen plan to meet the future needs of our schools and students while finding a way to embrace the growth of BYOD. Our staffing levels continue to be challenged, and we will be looking to expand as the needs of our schools increase.

Recommendation: That the Board of Trustees receives the Technology Report for information and for the record.

SCHOOL SUMMARIES MONITORING REPORT
"Inspiring confident, connected, caring citizens of the world"
December 16, 2014

## Background:

Annually administration reviews schools and provides information to assist the board in decisions related to the annual budget and capital planning. The School Summaries Report summarizes key information for each school and the jurisdiction including enrolment trends, facilities information and budget data.

The information informs the allocation of resources to support the vision (Inspiring confident, connected, caring citizens of the world) and mission (Engaging all learners in achieving their highest levels of academic and personal competence within a caring, innovative environment).

## Recommendation:

It is recommended that the Board of Trustees receives and reviews the School Summaries Report as information.

Tahra Sabin<br>Secretary-Treasurer

## Changes in School Structures and Configurations

| Introduction | Date Started |
| :--- | :--- |
| Christ the Redeemer Catholic Schools | September 2001 |
| International Student Services | September 2001 |
| Prairie Christian Academy | September 2004 |
| Northstar Academy | September 2007 |
| Trinity Christian Academy | September 2008 |

| Transfer | Date Occurred |
| :--- | :--- |
| Hussar grades 9-12 transferred to Standard | September 2009 |
| Central Bow Valley grades 9-12 transferred to Standard | September 2009 |
| Hussar grades 7 and 8 transferred to Standard | September 2010 |
| Rockyford grade 9 transferred to Standard | September 2010 |
| Rockyford grades 7 and 8 transferred to Standard | September 2011 |
| Carbon grades 10-12 transferred to Acme | September 2012 |

## General Information on School Summary Sheet

Golden Hills operates within a system that allows some level of site based decision making. Budget allocations are based on per pupil and contingency (varies annually).

On the summary sheets by school, under allocation of operating expenses the following costs are not included:

1. Pooled - schools are not responsible for all costs associated with operations, some expenditures are more effectively made through centralized pooled costs. Examples include, Inclusive Education, Technology Services, Professional Development and Curriculum Implementation;
2. Plant Operations and Maintenance;
3. Transportation Routes, and
4. System Administration and Governance.

## Definitions

5 Year Deferred Maintenance - is a 5 year cycle cost determined through a process that involves an Alberta Infrastructure independent consultant visiting schools with maintenance department staff to determine what building components need to be replaced. This is different from routine maintenance which deals with repairs only of building components. These are two different approaches to facility management.

Budget Operating Expenses - Budget amounts are as of September 30, 2014.

Combined Utilization Rate - Alberta Education calculates utilization based on footprint and student count, not classroom space. When a school reaches $85 \%$ capacity it is considered full under Alberta Education standards. The information provided in this report is based on 13/14 enrolment.

Infrastructure Maintenance and Renewal (IMR) - funding is for upgrading or replacing building components to meet regulatory requirements for health and safety, extend the life and quality of school facilities, meet requirements of educational programs and students with special needs, and improve energy efficiency to achieve cost savings. IMR funding is determined using student enrolment ( 50 [per cent), age of building ( 24 per cent), area of building ( 21 per cent), geographic location (3 per cent), and other factors (2 percent).

Projected Enrolment - is reported based on information from Baragar Software which does not include local assumptions. It is based on statistical data from Revenue Canada, Alberta Birth Registry, Census Canada, our own student information system and historical participation rates between school districts.

Please note there are no new local developments taken into consideration when projecting the enrolment number.

Utilities - Electrical, gas, water and sewage charges for building usage - it does not take into consideration whether the school is $30 \%$ full or $90 \%$ full. Provincial funding is received on a per pupil basis. As a result, schools with low utilization often create challenges in allocating resources for utility costs. Low utilities should not be confused with an efficient building in excellent shape. Building design and other factors such as shared space agreement can also contribute to differences in utility costs.

## Summary Sheet (K-6 \& 10-12)

Note: Not included are classroom millwork, lockers and visual display boards that are noted in the school reports. These items can cost hundreds of thousands of dollars, but they also can exceed life cycle durability.

## BOUNDARY REVIEW OF POLICY/PROCEDURES

"Inspiring confident, connected, caring citizens of the world"

December 16, 2014

## Background:

A board establishes school attendance boundaries in accordance with the School Act s. 13 (2). Currently attendance boundaries affect transportation funding which is calculated on the basis of students who reside more than 2.4 km from their designated school.

Attendance boundaries define the catchment area for a local school and determine transportation funding. Parents have the right to enrol their children in any school that has the resources and facilities to accommodate them however they are responsible for transportation if they choose a school other than their designated school.

In the past any boundary change requests from families would require a review by Administration on geography, distance and impact on other families in the area attending Golden Hills Schools. If the request met the criteria, Administration would bring for approval to the Board.

Information will be presented to the Board on current practice, Administrative Procedure and Policy in Golden Hills and other Alberta Boards. The Board will have the opportunity to discuss Policy and best practice for Golden Hills.

## Recommendation:

That the Board of Trustees discuss the information presented and consider recommendations.

Bevan Daverne
Superintendent
